SUMMARY

Passionate about creating efficient, user-focused solutions. I specialize in scalable applications, performance optimization, and seamless user experiences, leveraging technology to solve dynamic challenges.

EXPERIENCE

Fullstack Engineer

Invadraw | 2025 - Present

- I am employed as a fullstack engineer, developing and maintaining both frontend and backend components of the Invadraw investment planning platform.
- My responsibilities include designing user interfaces, implementing server-side logic, and ensuring seamless integration between various system components.
- I work closely with cross-functional teams to deliver high-quality software solutions that meet user needs and business objectives.

Fullstack Developer

Freelancer | 2022 - Present

- I contribute as a lead developer in architecting and developing multiple projects, consistently delivering scalable, efficient, and user-friendly applications tailored to client needs.
- My role involved overseeing end-to-end development processes, including requirements gathering, system design and development, infrastructure management, and deployment to production environments.
- By following Agile methodologies and leveraging expertise in SQL and NoSQL databases, I provided robust and maintainable solutions that effectively addressed complex technical challenges and delivered significant business value.

Software Engineer Intern

DirectFn | Jan 2023 - Jun 2023

- Developed two key projects from ground up as part of the Market Data Backend team: (1) MarketData Update Checker - an internal testing tool using React, Redux, and WebSocket to visualize DirectFN's market data streams; and (2) MBE API Portal - a role-based API documentation platform built with Docusaurus and React, featuring a Bun.js backend with Prisma ORM and PostgreSQL, session management via cookies, and Dockerized deployment.

SKILLS

C, C++, C#, Java, Python, JS, TS, React, Next, Node, Express, Bun, Hono, .Net, Spring Boot, Prisma, Mongoose, MSSQL, PostgreSQL, MongoDB, Docker, Firebase, Figma

PROJECTS
